"We must never forget those we have lost."

July 15, 2015

Learn to Cope is proud to partner with Chief Campanello of the Gloucester Police Department on his and his departments efforts helping those in the community who grapple with the disease of addiction.

We are honored to help in any capacity in supporting families in Gloucester and surrounding areas with support, education, resources and hope.

It is our belief that working together with Chief Campanello and the Angel Program more families who suffer alone in their homes due to stigma may reach out for help and support.

In addition we would like to thank Chief Campanello for attending our Gloucester and Salem groups and providing an amazing amount of HOPE to families and bring about solace in seeing that we can work with Law Enforcement to help to end this scourge that has hurt our families and our communities alike.

We look forward to having him visit more of our chapters in the months ahead!

We at Learn to Cope commend Chief Campanello for his extraordinary work and innovative and courageous efforts in Gloucester that have already brought about change in the lives of people who have reached out for help.

Sincerely;

Joanne Peterson
